Teaching pronunciation has experienced a considerable change and has become more learner-centered, often using game-based activities, and the like. Hence, this webinar aims to discuss how teaching pronunciation can be done creatively in language classrooms. The webinar will begin by talking about the importance of pronunciation. It will proceed by discussing 5 ways of teaching pronunciation creatively: phonetic symbols, using rods, drilling, gestures, and rhyme. To end, it will provide a task for the participants to check the practicality of the techniques.
